

Decision 04-12-043 December 16, 2004

**BEFORE THE PUBLIC UTILITIES COMMISSION OF THE STATE OF CALIFORNIA**

Application of Tran Hoa and General Airport Shuttle for authority to operate as an On-Call Passenger Stage Corporation between points in Santa Clara, San Francisco, Alameda, Contra Costa, and Marin Counties and San Jose, San Francisco, and Oakland International Airports and to establish a Zone of Rate Freedom.

Application 04-09-036  
(Filed September 29, 2004)

**O P I N I O N**

**Summary**

This decision grants the application of Hoa Tran<sup>1</sup> (Applicant), an individual, pursuant to Pub. Util. Code § 1031 et seq., for a certificate of public convenience and necessity to operate as a passenger stage corporation (PSC), as defined in Pub. Util. Code § 226, and to establish a zone of rate freedom (ZORF) pursuant to Pub. Util. Code § 454.2.

**Discussion**

The application, as amended by letter dated November 8, 2004, requests authority to operate as an on-call PSC to transport passengers and their baggage between San Jose International Airport (SJC), on the one hand, and points in San Francisco, Alameda, Contra Costa, Santa Clara, and Marin Counties, and San Francisco International Airport (SFO), on the other hand. Applicant already

holds a permit from the Commission to operate as a charter-party carrier of passengers (TCP 17638-P.)

Applicant states there is a need for the proposed service because airport expansions to accommodate ever increasing passenger travel have resulted in greater highway and airport traffic congestion. Required security screenings have also impacted the flow of airport traffic. According to Applicant, many travelers who would normally utilize long term airport parking are now electing to use shuttle services to timely arrive and depart the airport. These passengers are able to eliminate the stress of driving on congested highways and avoid increased airport parking fees and bridge tolls. A prominent part of Applicant's service will be transportation between SJC and the Bay Area's other two major airports—Oakland International Airport and San Francisco International Airport (the only point in San Mateo County that Applicant will serve).

Applicant will operate initially with one 7-passenger van. He expects to expand to a fleet of seven to ten vans within two years. Attached to the application as Exhibit C is Applicant's unaudited balance sheet as of September 1, 2004, that discloses assets of \$37,500 (including cash of \$13,000), liabilities of \$9,500, and net worth of \$28,000.

The proposed fares to and from SJC range between \$20 (San Jose) and \$110 (Novato). Applicant requests authority to establish a ZORF of \$5 above and below the proposed fares of \$40 and under and \$10 above and below the proposed fares over \$40. Applicant will compete with other PSCs, taxicabs, limousines, buses, and automobiles in his service area. This highly competitive environment should result in Applicant pricing his services at a reasonable level. Many other PSCs have been granted ZORFs. The requested ZORF is generally consistent with the ZORFs held by other PSCs.

Notice of filing of the application appeared in the Commission's Daily Calendar on October 1, 2004. Applicant requests a waiver from the provisions of Rule 21 of the Commission's Rules of Practice and Procedure which require service of a notice of the application on all city and county officials within whose boundaries the passengers will be loaded or unloaded. Applicant served a notice to the five involved counties, 11 cities, the affected airports, public transit operators, and the transportation planning agency in the service area. Applicant states that all parties that have an interest in Commission proceedings subscribe to or have access to the Commission's Daily Calendar. We shall exercise the discretion accorded to us by Rule 87 and grant the waiver requested by Applicant because he will be providing on-call service, not scheduled service, and service on all cities in the service territory would be burdensome.

In Resolution ALJ 176-3140 dated October 7, 2004, the Commission preliminarily categorized this application as ratesetting, and preliminarily determined that hearings were not necessary. No protest has been received. Given this status, public hearing is not necessary, and it is not necessary to alter the preliminary determinations made in Resolution ALJ 176-3140.

This is an uncontested matter in which the decision grants the relief requested. Accordingly, pursuant to Pub. Util. Code § 311(g)(2), the otherwise applicable 30-day period for public review and comment is being waived.

### **Assignment of Proceeding**

Richard Clark is the assigned Examiner in this proceeding.

### **Findings of Fact**

1. Applicant requests authority to operate as an on-call PSC to transport passengers and their baggage between SJC, on the one hand, and points in San

Francisco, Alameda, Contra Costa, Santa Clara, and Marin Counties, and San Francisco International Airport, on the other hand.

2. Public convenience and necessity requires the proposed service.
3. Applicant requests authority to establish a ZORF of \$5 above and below the proposed fares of \$40 and under and \$10 above and below the proposed fares over \$40, shown in the application. Applicant will compete with PSCs, taxicabs, limousines, buses, and automobiles in his operations. The ZORF is fair and reasonable.
4. Applicant requests a waiver of the notice requirements of Rule 21 of the Rules of Practice and Procedure as he has served notice to five counties, 11 cities, the affected airports, public transit operators, and the transportation planning agency in the service area.
5. No protest to the application has been filed.
6. A public hearing is not necessary.
7. It can be seen with certainty that there is no possibility that the activity in question may have a significant effect on the environment.

### **Conclusions of Law**

1. Public convenience and necessity has been demonstrated and the application, as amended, should be granted.
2. The request to waive the notice requirements of Rule 21 should be granted.
3. The request for a ZORF should be granted.
4. Before Applicant changes any fares under the ZORF authorized below, Applicant should give this Commission at least ten days' notice. The tariff should show the high and low ends of the ZORF and the then currently effective fare between each pair of service points.

5. Since the matter is uncontested, the decision should be effective on the date it is signed.

6. Only the amount paid to the State for operative rights may be used in rate fixing. The State may grant any number of rights and may cancel or modify the monopoly feature of these rights at any time.
